History

- Funded by the Florida STW Joint Services Office
  - STW Opportunities Act of 1994
- 1995 STW Clearinghouse
Goal

- To serve as a central agency for the identification, organization, production, and dissemination of information needed to successfully implement and operate a statewide STW system.
Objectives

- Coordinate the systematic flow of information from local, state, and national agencies and organizations to Florida STW sites, STWJSO, and other interested groups and individuals.

- Disseminate promising practices and exemplary activities

- Provide products and services
Eliminate duplication of effort and wasted resources by sharing problem-solving information among STW partners

TOP TEN WAYS THE CLEARINGHOUSE CAN HELP YOU
Workshops/Presentations

- Identify the most recent info on your topic
- Provide public domain material for photocopying
- Provide several videos to select from
- Include a Publication Order Form
Curriculum Development

- Ex., integration activities, block scheduling
- Conduct a search
- Broadcast request on various listservs
- Identify subject matter experts
- Gather all relevant documents from the collection
Develop a PR Campaign

- Ex. Examples of successful marketing plans for STW in a rural area.

  - Identify brochures/videos / marketing plans developed by local consortia/other states
  - Contacts/organizations within your region
Developing a New Program

- Ex., electronic engineering, job shadowing, career assessment
- Broadcast on listservs
- Search electronic resources
- Identify instructional material
- Where else is the program offered - contacts
Contact Information

- Ex. Who’s the regional director for region 3;
  What region has a promising job shadow program.

- Directory search
- Referral
Research

- Ex. block scheduling, vocational centers vs. technical centers

- Comprehensive search
- Broadcast on listserv
- Document delivery
- Other clearinghouses
- Labs/Centers
Funding Sources

- Ex. Is there a grant/foundation source for minorities in science and math?

- STW Homepage
- FEDIX
- Federal Register
- Commerce Business Daily
A List of Conferences/Workshops to Attend

- Ex. What workshops are being offered in the area of curriculum integration?

- STW Homepage Calendar
- Search the Web
Ex. What are the salary comparisons of student graduates in postsecondary programs?

- NCES
- FDLES
- USDOL/USDOE
Electronic Networking

- Ex. How do I obtain a FIRN PPP account?
  - Getting connected
  - Listservs
  - Email
  - PPP accounts

ESCAROSA STW PARTNERSHIP

CONTACT

Barbara S. Wall, Pensacola Junior College, 1000 College Boulevard, Pensacola, FL 32504. (904) 484-1492; Fax 484-1826.

The Escarosa STW Partnership plans to achieve its goals and outcomes over a three-to-five-year period. The first year required many meetings to coordinate and implement STW activities at the pilot sites and the schools within their feeder patterns. Years two through five will be dedicated to full implementation and program expansion through coordinated efforts and the maintenance of active participation by all partners. During the first year, committees were established and assigned specific goals. They will be structured to facilitate collaboration and expanded to include appropriate partners in additional years. Funds will be used to conduct extensive professional-development activities, provide public awareness of the STW system, develop and share best practices (years two through five), conduct evaluation, and ensure continuous quality improvement (CQI) of the regional STW system.

GOALS

- Coordinate and expand existing career-preparation and job-training programs serving in-school and out-of-school youths.
- Expand and sustain the active involvement of all stakeholders in planning, awareness, and oversight activities.
- Continue awareness activities and strengthen involvement in Escambia County’s Council for Economic Development, Santa Rosa County’s Economic Development Council, the chambers of commerce, and the Escarosa Workforce Development Board, Inc. (EWDB).
- Expand involvement with school advisory councils/school-improvement committees.
- Increase efforts to improve the enrollment, program-completion, and placement rates of students with disabilities and other...
Multimedia Showcase

Welcome to the Florida School-to-Work Multimedia Archives. Below you will find links to video and sound files related to School-to-Work. There are also links to the different types of multimedia players on the web and instructions on how to install them. Enjoy!

Florida STW Orientation Video (18 minutes)

Below are VivoActive 160x120 and 240x180 files for the full video. These are VIVO Active streaming video files as in the 30-second clips above. As above, you will need Navigator 3.0 or IE 3.0 and the VIVO Active Plugin.

- 18-minute video PSA (160x120, 28.8 modem)
- 18-minute video (240x180, ISDN or network)

Florida School-to-Work PSA (30 seconds)

Each of the video links below will open a new window for each video. Please read the requirements listed below for each type of video file available. Links are also provided to allow you install the necessary software to view the videos.

Digital Equipment Learning Grants

Sponsored by: Compaq Computer Corporation Community Relations

Early in our history, Compaq stressed the importance of community involvement by supporting local Houston organizations that focused on education, health, social services and the arts. Over the years, our program has grown from a small foundation to a corporate community investment program that focuses on key issues with strategic results in mind.

ACT Work Keys System

Click [HERE] for current job profiles on-line. Click [HERE] for a description of the skill levels listed in each profile.

American College Testing (ACT) designed the Work Keys system for documenting and improving workplace skills. Work Keys is based on the U.S. Department of Labor’s SCANS Skills. ACT, in consultation with employers, educators, and experts in employment and training requirements created this system to improve the overall condition of America’s workforce. Work Keys can help institutions meet School-to-Work, Tech Prep, and economic and workforce development initiatives through its skill assessments, job profiles, and instructional/curriculum support.

The ACT Work Keys system is based on eight employability skills. These skills are crucial to the effective performance in most jobs: Reading for information, Applied Mathematics, Listening, Writing, Technical Operations, Applied Technology and Human Information. The skills for each.
This job profile was conducted by Florida Atlantic University. The skill levels identified below were recommended by the subject matter experts (SME’s) who participated in this project. The task list for this job title appears on the next page(s).

In the Spotlight

Sit! Stay! Learn!

Are these words of instructions to our students? Yes, but not to the two-legged ones. These are directions for the youngest and newest students in Hillsborough County Public Schools—six golden retriever puppies. These four-legged students are paired with truant middle schoolers who train them. They are then placed with individuals with disabilities.

This work readiness grant from the Department of Juvenile Justice was awarded to the Dorothy Thomas Exceptional Center, a school for at-risk and emotionally disturbed students. The grant was in collaboration with the Department of Technical and Career Education and the Department of K-12 Nontraditional Programs. In September 1998, Dorothy Thomas Exceptional Center began an ambitious program to target at-risk truant students.

Retrieval software: DB/Text WebPublisher, provided by **Inmagic**
Bulletin Boards

When the Web first got started, threaded discussions and live chat were interesting diversions on Internet sites and corporate intranets, but little more. Now, these tools are being harnessed for many important uses, including distance learning, workgroup management, and educational collaboration.

The link below will take you to a login screen where you may register with the webboard system. Guests may also review messages, but will not have the option to post messages without registering first. The registration screen is quick and easy, and provides a way to validate our users in order to prevent unsolicited advertising on the system. From there you will be taken to a page with the current messages displayed, and the conferences available. Click on each message to view it and the associated replies.

Florida School-to-Work Web Conference Board

The Florida School-to-Work Clearinghouse provides this feature for education, information-gathering, hot topic discussion, and group collaboration. The webboard system can also send you new messages posted to the board via e-mail, for those times when web browser access is either unavailable or unwanted. By following the instructions at the bottom of the e-mail, you may also reply to the post or start a new discussion thread.

To have a new conference created, or for more specific assistance, please contact the web conference administrator at ajarvis@mailer.fsu.edu.
Welcome! If you wish to participate in a web conference, please select your desired access method below:

- **Guest**: Guests entering conferences are limited to read-only access
- **New Users**: New users click here to create a personalized profile

Welcome to Florida School-to-Work Webboard, Guest!

To view topics within a conference, click a plus symbol (+) next to a conference name (or the conference name itself) in the frame to the left.

Thank you for using our board!
